STATE OF ART

Manufacturing

Weaving

BILALTEX has an extensive weaving arrangement of variety of machines including Power, Auto, Shuttless and Airjet through which we produce a vast variety of fabrics having multiple weaves ranging from 36 inch to 153 inch with maximum thread count. All machines are fully equipped with various kinds of secondary and auxiliary equipment.

Processing

BILALTEX deals in all modes of processing i-e bleaching (kier/plant), dying (direct/disperse/reactive/pigment etc.) and printing (rotary/panel). We outsource our processing from units of high quality standards. We do have specialized quality control personnel to keep a check on quality of goods right from the beginning till the end.

Stitching

At BILALTEX, we are equipped with latest and modern stitching machines and a highly skilled labor to meet our modern stitching requirements. The machines include Singer, Safety + Over lock, Double needle, Kansai special and Flat lock machines.

HR Policy

Textile industry is highly labour intensive in nature. Managing a team engaged in doing largely repetitive work is one of the challenges that we face.
